SLOPE RESCUE call 112
The slope rescue is only ensured on the pistes from n. 1 to n. 41, up to 15 minutes after the closing of the lifts.
The connections among the slopes will be opportunely shown and only on the marked course the rescue team will be ensured.
The lifts companies do not ensure the rescue team outside the marked courses.

MORE INFO

! Always keep your skipass: the insurance is linked to the skipass and is valid only in the event of rescue intervention on the slopes.

Welcome!

Our most precious resource is waiting for you. Please, ski carefully and respect seriously the international ski slopes rules, in order to enjoy your skiing days.

Our marked and signed slopes are arranged and checked daily after the closing of the lifts. We remind you that skiing off-piste is at your own risk!

Ski slopes are closed every day (except from scheduled night skiing) from 5 p.m. to 8 a.m. In these hours it is strictly forbidden to walk on the ski slopes, to cross them and to take along dogs because it might be very dangerous for your life due to the presence of ruts, winch ropes, exposed cables and hoses of snow making machines.

Be careful and do not open chairlift bars too early when entering the upper station.

14 rules of conduct on slopes

1. Protective helmet. For all skiers, regardless of age, the use of a helmet is mandatory.
2. Respect for others. All skiers must behave in such a way as not to endanger others or cause damage.
3. Control of speed. Every skier must "manage" a speed and behaviour appropriate to their ability, as well as to the general conditions of the slope, weather conditions and traffic intensity.
4. Choice of direction. The skier upstream, who, due to their dominant position, has the choice of route, must keep a direction that avoids the danger of collision with the skier downstream.
5. Trajectories. It is important to pay attention to the trajectories of skiers, taking into account the type of equipment: skis, snowboards, telemark.
6. Overtaking. Overtaking may be carried out either uphill or downhill, on the right or on the left, at a distance sufficient to avoid hindering the skier being overtaken.
7. Minimum space for overtaking at the edge of the piste. It is good practice for skiers not to turn at the edge of the piste, but to always leave sufficient space to facilitate overtaking.
8. Crossing intersections. Skiers entering a piste must check both uphill and downhill to ensure that they can do so without endangering themselves or others. The same behaviour must be adopted after each stop.
9. Stopping. Skiers who stop must move to the edge of the slope or to places with good visibility, never in narrow passages or near bumps. In the event of a fall, skiers must clear the slope as soon as possible and, when stopping at shelters or other areas, equipment must be placed outside the skiable area.
10. Never walk on the slopes. It is forbidden to walk or snowshoe on the ski slopes. The only exceptions are cases of urgent need and only along the edges of the slope.
11. Respect for signage. All skiers must respect the signage on the slopes.
12. Compulsory insurance and what to do in the event of an accident. All skiers must have insurance covering their civil liability for damage or injury caused to third parties. Everyone must provide the necessary assistance in the event of an accident.
13. Impaired state. It is forbidden to ski while under the influence of alcoholic beverages or toxic substances.
14. Skiers with disabilities. Skiers with disabilities must be given priority when using the lifts; when descending, particular attention must be paid to their trajectories, safeguarding their space and descent trajectories.

Want to be up to date?

On our website you can find all the info to get the best from every single day of holiday in our ski resort!

News, events, useful info about the ski season, concerts and ski races, the tips to enjoy the resort all year long. You will also find out how to get discounts on the skipass and other exciting experiences on the snow. Have a look at our webcam to feel always at home and don't forget to follow us on our social media!

pontedilegnotonale.com

Night skiing

Four days a week it is possible to ski under the stars on two perfectly lit tracks: the slope Valena in Passo Tonale and the slope Valbione in Ponte di Legno.

When the sun goes down, become a night-time skier!

Find out more on pontedilegnotonale.com

Fun Kids evening

Enjoy an entertaining and happy evening with your family: races on the snow, face painting and baby torchlight descent.

The Fun Kids evenings take place every week both in Ponte di Legno and Passo Tonale.

Find out more on pontedilegnotonale.com

Download our app

Download our app Pontedilegno-Tonale Official. Don't forget to add the skipass code to your profile: in case of loss you just pay € 5,00 for the k-card deposit for the first duplicate (the duplicate of hourly and 1-2 days skipass is not available).
