WELCOME

We are truly delighted to welcome you to the slopes of Pontedilegno-Tonale! To ensure you enjoy your visit to the full, we ask that you **ski safely and observe the international rules of conduct on the slopes**.

Every day, we put our heart and soul into preparing and maintaining the slopes and lifts, so that you can enjoy the best possible conditions each morning. The **slopes are closed** (with the exception of scheduled night skiing sessions) **from 5 pm to 8 am**: during this time, **it is strictly forbidden to access them**, cross them, walk on them or walk your dogs there. During these hours, snowcats, snow-making cannons and snowmobiles are in operation: inappropriate behaviour could endanger both you and those who are working.

Off-piste skiing requires awareness and adequate preparation. To tackle a route of this kind, it is advisable to use a professional mountain guide, have the necessary equipment, study the route and check the avalanche bulletins in advance.

Please take care when using the ski lifts. **Children under the age of 8 or shorter than 1.25 m must be accompanied by an adult**. Do not open the safety bar on chairlifts before entering the station, and use all lifts with care: someone else will be using them after you!

Enjoy your days on the slopes!

14 RULES OF CONDUCT ON SLOPES

1 **Protective helmet:** for all skiers, regardless of age, the use of a helmet is mandatory.
2 **Respect for others:** all skiers must behave in such a way as not to endanger others or cause damage.
3 **Control of speed:** every skier must "manage" a speed and behaviour appropriate to their ability, as well as to the general conditions of the slope, weather conditions and traffic intensity.
4 **Choice of direction:** the skier upstream, who, due to their dominant position, has the choice of route, must keep a direction that avoids the danger of collision with the skier downstream.
5 **Trajectories:** it is important to pay attention to the trajectories of skiers, taking into account the type of equipment: skis, snowboards, telemark.
6 **Overtaking:** overtaking may be carried out either uphill or downhill, on the right or on the left, at a distance sufficient to avoid hindering the skier being overtaken.
7 **Minimum space for overtaking at the edge of the piste:** it is good practice for skiers not to turn at the edge of the piste, but to always leave sufficient space to facilitate overtaking.
8 **Crossing intersections:** skiers entering a piste must check both uphill and downhill to ensure that they can do so without endangering themselves or others. The same behaviour must be adopted after each stop.
9 **Stopping:** skiers who stop must move to the edge of the slope or to a place with good visibility, never in narrow passages or near bumps. In the event of fall, skiers must clear the slope as soon as possible and, when stopping at shelters or other areas, equipment must be placed outside the skiable area.
10 **Never walk on the slopes:** it is forbidden to walk or snowshoe on the ski slopes. The only exceptions are cases of urgent need and only along the edges of the slopes.
11 **Respect for signage:** all skiers must respect the signage on the slopes.
12 **Compulsory insurance and what to do in the event of an accident:** all skiers must have insurance covering their civil liability for damage or injury caused to third parties. Everyone must provide the necessary assistance in the event of an accident.
13 **Impaired state:** it is forbidden to ski under the influence of alcoholic beverages or toxic substances.
14 **Skiers with disabilities:** skiers with disabilities must be given priority when using the lifts; when descending, particular attention must be paid to their trajectories, safeguarding their spaces and descent trajectories.

WANT TO BE UP TO DATE?

pontedilegnotonale.com

On our website you can find all the info to get the best from of your holiday in our ski resort!

News, events, useful infos about ski season, concerts and ski races, the tips to enjoy the resort all year long. You will also find out how to get discounts on the skipass and other exciting experiences on the snow. Have a look at our webcam to feel always at home and don't forget to follow us on our social media!

SKIBUS SERVICE

No more car-stress during holidays! With Skibus Service, getting to the slopes is simple, quick and smart.

For holders of **skipasses valid for 2 to 14 consecutive days** or **seasonal tickets**, the service is free and, from this year, even smarter: with Pontedilegno-Tonale Official App you can check all the important information for your journey in real time.

For more infos, visit out website at **pontedilegnotonale.com**

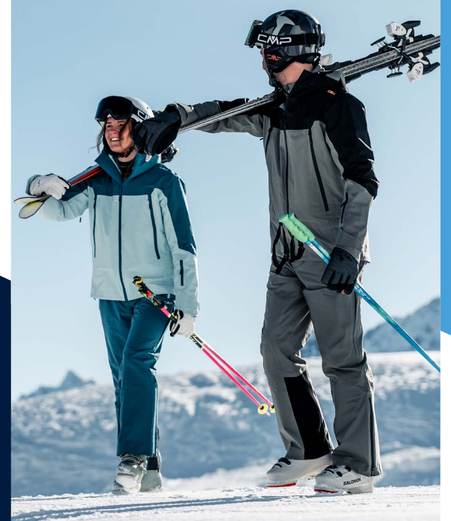

SLOPE RESCUE? CALL 112

Do you need help on slopes? Call 112 and wait for slope rescue. The slope rescue is only ensured on the slopes* from n.1 to n. 41, up to 15 minutes after the closing of the lists.

*The connections among the slopes will be opportunely shown and only on the marked course the rescue team will be ensured.
The lifts companies do not ensure the rescue team outside the marked courses.

HELMET ON, MIND OFF

HELMET ON SLOPES IS MANDATORY

SMART SKIPASS

NEVERENDING MOUNTAIN

Plenty of activities are waiting for you in Pontedilegno-Tonale. Are you ready?

NIGHT SKIING

Four nights a week, our slopes light up: as the sun goes down, experience the thrill of night skiing on the Valena slope at Passo Tonale and the Valbione slope in Ponte di Legno.

FUN KIDS EVENING

Fun Kids evenings are all about color, joy, and family entertainment! With ski races, face painting, and a children's torchlight parade, it's the perfect recipe for a magical family night out.

ALPILAND

A true heaven for families and children, offering a fun-filled day with babysitting and entertainment. Features include a dedicated area for learning alpine skiing, inflatables, snow tubing, and sledding.

TONALE MOUNTAIN CENTRE

The family centre you didn't expect, where everything kids and parents need is right at their fingertips. Discover a new family experience and make the most of your holiday!

ADAMELLO SNOWPARK

A snowpark featuring progressive lines where tricks, jumps, and flips are right at home for an adrenaline-fueled, true freestyler experience. Ready to take on the Ski Cross, too?
